imagine. change.

OFFICE EQUIPMENT: **MONO**
Networked and standalone black and white printing focusing on speed, user friendliness and productivity.

MP 201F / MP 201SPF

Efficiently sharing documents and other information is critical in any size organisation. Finding smart, new ways to manage print, copy, scan and fax output can significantly reduce costs and improve the speed and agility of your business. The RICOH Aficio MP 201F/MP 201SPF offers a variety of standard and optional management tools that give you greater control over document-related processes. Security features - such as hard driver overwriting, encryption and user authentication - provide multiple levels of protection for important documents and data.

- Up to 20 ppm output speed
- Copy, scan and fax large documents such as booklets, brochures and oversized pages on the legal-size platen
- 1,350 sheet paper capacity
- Print PDF or Jpeg attachments automatically by sending an email directly to the system with the Mail-to-Print feature

B&W Copy: 20 pages per minute
B&W Print: 20 pages per minute
Resolution: 600 x 600 dpi

MP 301SPF / MP 301SP

The MP 301SP / SPF are fast black-and-white A4 multifunctionals in a compact design. They offer advanced print, copy, scan and fax functions, available via a large 4.3-inch colour touch panel. These innovative devices can easily replace several single-function devices and improve your workflow. Their small footprint saves valuable office space. Ricoh's next generation controller (GWNX) also gives you outstanding device management capabilities.

- Simple to operate.
- Intelligent compact design.
- Next generation controller architecture (GWNX).
- TCO down.
- A4 only device

B&W Copy: 30 pages per minute
B&W Print: 30 pages per minute
Resolution: 600 x 600 dpi

MP 402SPF

Your workplace needs high performance and powerful features on a daily basis. But you also need value for your spend – the MP 402SPF ticks every box. This innovative A4 black and white MFP with an Intel Processor gives you the best cost per page value available in its class. It also enables easy integration with your existing network, combined with an innovative one touch access user-interface – so your small to medium-sized workgroup keeps on performing and keeps on growing.

- Intuitive 10.1 inch Smart Operation Panel helps increase productivity and improves workflow
- Our Single Pass Document Feeder will scan both sides of a document in one pass, reducing scan time
- Faster with improved Intel processor enabling you to simply do more
- Offers 1,200 x 1,200 dpi high resolution printing at full speed
- Enhanced security through embedded authentication software

Fax: PSTN, PBX
B&W Print: 40 pages per minute
Resolution: 1,200 x 1,200 dpi

COMMUNICATION SOLUTIONS:
INTERACTIVE WHITEBOARD

Resolution: Maximum: 1,920 x 1,080
Touch System: Light interception method (optional sensor kit and controller required)

D6510

The Ricoh Interactive Whiteboard D6510 is here to help you reimagine your workplace. It gives your teams the tools they need to share information, exchange ideas and make decisions together. And it enables this in real time, from any location, saving time and travel costs. With its 65-inch touchscreen and full HD resolution, this all-in-one remote collaboration hub is suitable for conference and large meeting rooms. The D6510 transforms everyday meetings into highly productive working sessions.

- One-stop collaboration hub with document annotation and web browsing capabilities
- Video conference-ready with built-in speakers and microphone, enhanced by Ricoh camera (optional)
- Integrates with Ricoh video conference services: UCS and UCS Advanced, and Skype™ for Business
- Designed for ease of use with two controller options: original Ricoh and OS free
- Adding Ricoh Streamline NX (SLNX) enables secure card-based device access and allows you to email and print anytime produced on the whiteboard

Resolution: Maximum 3,840 x 2,160

D7500

The Ricoh Interactive Whiteboard D7500 is here to help you transform your meetings and turn presentations into collaborative experiences. With a 75-inch touchscreen and vivid 4k Ultra HD resolution, it is ideal for larger spaces such as boardrooms and conference rooms. The D7500 is an all-in-one remote collaboration powerhouse. It allows the whole team to work together on projects and actively participate in presentations and meetings, whether they are in the room or across the world.

- One-stop collaboration hub with document annotation and web browsing capabilities
- Video conference-ready with built-in speakers and microphone, enhanced by Ricoh camera (optional)
- Integrates with Ricoh video conference services: UCS and UCS Advanced, and Skype™ for Business
- Adding Ricoh Streamline NX (SLNX) enables secure card-based device access and allows you to email and print anything produced on the whiteboard
- Designed for ease of use with two controller options: original Ricoh and OS free

Resolution: 3,840 x 2,160
Touch System: Infrared
Video Input: VGA, HDMI, DVI-D, Display port

D8400

Developing and communicating concepts quickly and effectively is critical in commerce, manufacturing and education. Ricoh's innovative Interactive Whiteboard D8400 enables and encourages efficient training and collaborative working, and empowers the delivery of content that will engage, enlighten and enthuse audiences. Even in large rooms the easy to start D8400 has the dynamic visual clarity that commands attention and accelerates understanding. Your choice includes models with or without a controller.

- Outstanding clarity: maximum 4k HD resolution
- Large 84" display ideal for larger rooms
- Unique and easy to operate User Interface
- Collaboration through connectivity to MFPs with customisation
- Swift, seamless connectivity to other smart devices

COMMUNICATION SOLUTIONS:
PROJECTORS

Ricoh's range of projectors are small, light, compact and bright.

PJ WX4152N

Brightness: 3,500lm
Resolution: 1,280 x 800
Network: Yes

Bring your message to your audience, wherever they are. Place the portable RICOH PJ WX4152N inches from the wall and present up to 80 inches diagonally with crisp, compelling color and clarity. Take advantage of 360-degree projection and a wide range of unique features to share your message with more people.

- 360-degree projection, present on any wall anywhere
- The portable PJ WX4152N can be set up in classrooms, boardrooms, public spaces and even hallways with ease and convenience
- Display images from up to four different computers onto a single screen
- Use both wired and wireless network sources simultaneously

RICOH Projector Stand

The RICOH Projector Stand helps you to mount the **RICOH PJ WX4152N** projector.

PJ WX4241 Series

An innovative 'rear-front' projector design places all cables and fan exhaust to the front so that you can place these projectors on a desk-edge, without noise and heat affecting the viewers. This also frees desk space, reduces glare and eliminates obstructions in the projection beam. For complete flexibility, the projectors can be wall or ceiling mounted if required. A sophisticated feature set provides you with enhanced functions such as auto-brightness, advanced connectivity options and 3D projection support.

There is even a presentation timer to help you keep track of the screening duration! Short throw or desk-edge projection options with simple, intuitive operation Advanced connectivity options include LAN and Wi-Fi to a range of devices. Sophisticated features include auto-brightness and integral speaker. Outstanding projection quality using Ricoh advanced optics technology. Optional Interactive Kit turns any projection surface into an interactive whiteboard.

| Brightness:	Resolution:
3,300 lumen	1,280 x 800

PJ 6280 Series

Laser projection image quality for large audiences

You need high resolution for projecting superb quality images to large audiences, coupled with minimal maintenance so you can place a projector in difficult access locations. The Ricoh PJ WXL6280 / PJ WUL6280 meets your needs with an advanced laser light source for brilliant 6,000 lumens image resolution and typical 20,000 hours operation without maintenance. For business conferences, education lecture halls, art galleries and all venues with audiences of up to 100, this is the ideal high resolution, low maintenance projector.

- Choice of WXGA or WUXGA resolution powered by laser light, for outstanding high contrast images with exceptional colour saturation
- Laser light source provides ultra-long 20,000 hours typical operation without replacement, for minimal maintenance and low Total Cost of Ownership
- Wide choice of connectivity options includes HDBase T for single cable connection of power, video, audio and control functions at up to 100 metres
- Choice of 5 swappable lenses including ultra-long zoom lens, allows projection size from 50 to 300 inches at distances up to 5.7 metres
- Install at any projection angle, even from diagonal position, with vertical and horizontal keystone adjustment. Feature rich spec includes Picture in Picture / Picture by Picture (PIP/PBP)

Brightness: 6,000 lumen
Resolution: 1,920 x 1200

B&W Print: 30 pages per minute
Fax: PSTN, PBX
Resolution: 300 x 600 dpi

MP 305 + SPF

The MP 305+SP is a smart, compact A4 B&W MFP with A3 option that is ideal for small to medium-sized offices. With great usability functions like the Smart Operation Panel, you get all the advantages and the compact footprint of an A4 MFP but with A3 printing capabilities. Printing at 30ppm these devices are versatile, extremely quiet and they're both ideal if you're looking for inexpensive A3 printing solutions without losing valuable office space that a traditional A3 MFP would occupy.

- Small footprint – fits on any office counter or table
- Compact A4 Smart MFP with A3 capability using the bypass tray
- Unified user experience and simplified operation with intuitive 10.1 inch touch panel
- Operates silently allowing a comfortable workplace
- Inexpensive to run with an all-in-one solution-ready configuration

MP 501SPF / MP 601SPF

These two A4 B&W MFPs give you faster print speeds – with both the MP 501SPF and MP 601SPF offering 50-60ppm respectively – a large 10.1-inch Smart Operation Panel and compatibility and commonality with other Ricoh devices. But what's perhaps more important is the sheer range of work you can complete, including the ability to take on complex tasks much more efficiently, combined with a small footprint and durability that means these printers will be with you as your business grows.

- Intuitive 10.1 colour Smart Operations Panel
- Unified user experience
- Download apps via our Application Site
- Prints at up 50-60ppm
- Low running costs

B&W Print: 50 to 60 pages per minute
Resolution: 1200 x 1200 dpi

MP 2001SP / MP 2501SP

The MP 2001SP/MP 2501SP bring new possibilities to workgroups and small businesses. On their own, the A3 black and white MFPs provide productive and economical printing, copying and colour scanning. And that's just part of their appeal. The devices can also be integrated with software offering everything from electronic workflows to remote management. Other features normally found on higher speed devices include a customisable 4.3 inch colour touchscreen display and optional HDD. Now even small businesses can enjoy the cost savings and process efficiencies enjoyed by large enterprises.

- Print speeds up to 25ppm and colour scanning up to 50 page per minute
- 4.3 inch colour touchscreen gives one-touch access to functions and personalised workflows.
- Energy efficient operation keeps your electricity bills low and automatic double-sided printing cuts paper use

B&W Print: 20 to 25 pages per minute
Resolution: 600 dpi

Ricoh's Intuitive User Interface with its Smart Copy, Smart Scan, Smart Fax and ID Card Copy apps simplifies operation. Productive finishing options include a staple/stapleless finisher and an inner folding unit, which is unique to Ricoh.

- Print and copy in black-and-white, scan in colour
- Choice of 40, 50 ppm print speeds
- Extra-large 10.1" Smart Operation Panel
- Intuitive User Interface simplifies operation
- Productive feed and finishing options

B&W Print: Choice of 40, 50 pages per minute print speeds
Resolution: 1200 dpi (print), 600 dpi (copy), 600 dpi (scan)

B&W Print: Choice of 60 pages per minute print speeds
Resolution: 1200 dpi (print), 600 dpi (copy), 600 dpi (scan)

MP 6055 SP

The new A3 MFPs print and copy in black-and-white and scan in colour. Ricoh's award winning 10.1" Smart Operation Panel - the largest in its class - lights up when touched, allowing the user to select settings whilst the MFP recovers from energy-saving sleep mode. Ricoh's Intuitive User Interface with its Smart Copy, Smart Scan, Smart Fax and ID Card Copy apps simplifies operation. Productive finishing options include a staple/stapleless finisher and an inner folding unit, which is unique to Ricoh.

- Print and copy in black-and-white, scan in colour
- Choice of 60 ppm print speed
- Extra-large 10.1" Smart Operation Panel
- Intuitive User Interface simplifies operation
- Productive feed and finishing options

B&W & Colour Print:
85/90 pages per minute
Resolution: 1200 x 4800 dpi

- Print speeds run at 85 or 95ppm (A4).
- Full engine speed maintained at all paper weights.
- Auto duplex long sheet printing up to 700mm. Simplex up to 1260mm.
- Trained operator replaceable units for ultimate uptime.
- Easy jam removal with animated guidance and LED lights.
- To maintain productivity, paper and toner can be replenished on the fly.
- Tray switching, twin stackers and print scheduling feature support out of hours production.

Pro™ 7200 / S / X / SX
Pro™ 7210 / S / X / SX

Ricoh's new production printers produce repeatable colour output with a look and feel that is comparable to offset. The imaging system employs VCSEL technology (vertical cavity surface emitting lasers), ultra-fine PxP chemical toner and an oil-less fusing system to produce beautifully rendered outputs. The PxP toner has a wide colour gamut, enabling the printers to produce vivid lifelike colours with smooth tonal gradation.

- Print quality that is comparable to offset.
- Vivid lifelike colours, smooth tonal gradation and fine lines.
- Low toner pile height minimises glossiness.
- Precise front/back registration with added automatic quality control.

Production printing operations require reliable and productive technology that allows you to produce high quality print outputs at an affordable cost. Bring more of your print in-house and gain more control over your print outputs.

Pro™ 8200S / Pro™ 8210S / Pro™ 8220S

The RICOH Pro™ 8200S, 8210S and 8220S are high-end black and white production printers delivering next- generation performance to help you stay ahead in an ever-evolving industry. With high resolution (1,200 x 4,800 dpi) achieved by VCSEL* technology, these models offer outstanding reproductive capabilities. Featuring highly accurate duplex registration and enhanced paper handling, they provide powerful support for a variety of production printing operations, from short-run, on-demand production of books and materials, to business cards and direct mail.

- New Process Control technology ensures print quality is maintained even on long runs
- Operational panel with customisable home screen
- Enhanced ORU (Operator Replaceable Units) to minimise downtime
- Accurate duplex registration

B&W Print: 96/111/136 pages per minute
Resolution: 1,200 x 4,800 dpi

Pro™ C9100 / Pro™ C9110

The Pro™ C9100 Series can integrate into a hybrid workflow and delivers greater flexibility, superb print quality and higher productivity with faster turnaround performance. It sits alongside existing offset technology to provide variable data and greater media handling capability. This makes high volume jobs cost effective and highly efficient whilst introducing personalisation and customisation options simply not available with offset technology.

- Exceptional print quality
- Maximises productivity
- Outstanding durability
- Extensive media capabilities

B&W & Colour Print:
110/130 pages per minute
Resolution:
Scan: 600 x 600 dpi
Print: Max 1200 x 4800dpi VCSEL

Ri 6000

Ready for a faster and easier print to garment process? The RICOH Ri 3000 and Ri 6000 save you time, allowing you to produce more, and focus on mass customisation. The Ricoh DTG printers streamline print workflows into three easy steps:

- Upload the designs.
- Preview your work on the console and then print on a variety of garments (pretreated, if applicable).
- Then, cure the ink with a heat press for colour-fast, machine-washable prints that last and stretch without cracking.

Setup is faster and easier than the multistep process required for analogue technology, such as screen print. Screen printers, specialist DTG printers, sign & display printers, commercial graphic arts printers, other entrepreneurs can all benefit....from producing more inhouse. With a quick turnaround of short and long runs, you can consistently deliver high quality prints on time and keep customers coming back.

Impress customers with high quality prints

Win and retain more customers by delivering the high quality output that comes with the combination of Ricoh innovations and engineering. The Ricoh MH2420 industrial printheads deliver optimum jetting performance and produce up to 600 dpi resolution prints that will amaze customers for years to come. Impress customers by making designs on light and dark garments come to life with CMYK plus two white ink channels. Plus, the eco-friendly, water-based inks will give your designs a soft touch and vibrant colours. You can also control output with the included AnaRIP and opt for higher resolution or quicker results by selecting print quality settings that affect colour, density and more.

Speed Mode: 27 seconds
Resolution: 600 x 600 dpi

PRODUCTION PRINTING

Mono and colour cutsheet solutions for the CRD, In Plant, Print-for-Pay and Commercial Print markets.

Pro™ C5200 / Pro™ C5210

Today demands in print have been diversified – faster delivery, shorter run lengths and lower costs. You need a machine with innovative technology that helps you reduce operation costs and boost performance even more than ever.

The Ricoh Pro™ C5200s and C5210s are the best partner for you. They offer value-added printing with the latest technologies. High image quality and broad media handling help you expand your business, whilst easy operation is key to promote in-house printing.

- Extremely high image quality
- Broad media support
- Easy to use design
- Maximum uptime
- Small footprint

Colour Print: 65, 80 pages per minute
Resolution:
Scan: 600 x 600 dpi
Print: Max 1200 x 4800dpi VCSEL

B&W Copy: 65/75/90 pages per minute
Resolution: 600 x 600 dpi

MP 6503 / MP 7503 / MP 9003

Transform your office with professional-quality Smart MFPs designed for high-end print environments that never stop. With three distinct models – MP 6503SP, MP 7503SP, MP 9003SP – you can choose from a range of print speeds, but no matter what model you choose, you'll get supreme reliability, productivity and functionality all designed to smooth business-level workflow. The 10.1 inch Smart Operation Panel allows for much more intuitive document management and also ensures outstanding security for your total output.

- Consistent and high-quality print output
- Native user experience and simplified operation with intuitive 10.1 inch touch panel
- Resolve stoppages quickly with LED paper jam recognition
- Includes technology to minimise toner wastage so overall TCO is lower
- Large capacity trays to keep your device running for longer

SP 4510 SF

Looking for an affordable but high-performance investment for your office? The SP 4510SF is available at a surprisingly low initial cost. Compact and easy to use, it speeds along at 40 pages per minute. Colour scanning and fast faxing enhance its capabilities, while a high paper capacity and wide media handling capabilities enable you to focus on your other tasks. In addition, this B/W MFP boasts a range of environmentally-friendly features to help you lower your carbon footprint.

- Innovative features reduce electricity consumption and Cost Per Page Small footprint; easy to operate
- Fast, efficient and productive
- Versatile paper handling with automatic duplex
- State-of-the-art security features to protect data

B&W Print: 40 pages per minute
Resolution: 1,200 x 1,200 dpi

B&W Copy: 28 pages per minute
Resolution: 1200 x 1200 dpi

SP 377 SFNwX

When you need to keep your business moving and your work flowing, the SP 377DNwX and SP 377SFNwX models have the answer. Equipped with a best in class, ultra-high yield All-In-One toner cartridge, you get up to 6,400 prints straight out of the box and won't need to buy new toner any time soon. With a longer print run, your overall cost per print is reduced and your total cost of ownership is reduced too. And of course, the added print capacity comes at no compromise of compactness or quality.

- Full ultra-high yield cartridge capable of up to 6,400 prints included
- Best-in-class CPP and less frequent purchase and replacement of AIO cartridge
- Compact with 1,200 x 1,200 dpi print quality
- Supports Windows, Mac and Linux IT environments
- Print and scan from Android and iOS smart devices

OFFICE EQUIPMENT: **COLOUR**

Networked and standalone devices and document solutions for high quality, cost-conscious colour printing.

Copy Colour: 20/25 pages per minute
Copy B&W: 20/25 pages per minute
Resolution: 600 x 600 dpi

MP C2004 exSP / MP C2504 exSP

When you want an MFP that can carry your business and ensure it meets every workflow challenge, this range of multi-function printers will become your bedrock resource in any hard-working general office. These flagship A3 colour MFPs are designed to cope with the high-intensity, high-output environment that helps your business thrive. So they offer increased reliability, high-quality production, and outstanding workplace efficiency – complemented by banner-print capabilities and features like the Smart Operation Panel.

- New: Single Pass Document Feeder so you save time and become even more efficient
- 10.1 inch Smart Operation Panel helps increase productivity and improves workflow with its
- Intuitive User Interface A Human Detection Sensor enables the MFP to jump into action as you approach so there's no time spent waiting for device warm-up
- Faster with improved Intel processor enabling you to simply do more
- Several finisher options so there's less need to outsource and you can have more in-house control of your collateral

MP C305SPF

Compact yet highly productive, MP C305SPF is a colour desktop multifunctional product capable of meeting all workgroup A4 document needs.

- Easier to use with colour touchscreen panel and one click drivers
- More productive with QSU (quick start-up) technology and 30 ppm throughput
- Energy efficient with best-in-class TEC (total energy consumption)
- Workflow enabled with a customisable home screen and ability to run Streamline NX*1
- More affordable, with a low cost of acquisition and low running costs

B&W Print: 25 to 60 pages per minute
Resolution: 1200 dpi (print), 600 dpi (copy), 600 dpi (scan)

MP C307SPF / MP C407SPF

Ricoh's latest A4 colour desktop MFPs compact and energy efficient as always but more productive than ever. MP C307SPF and MP C407SPF have also adopted Ricoh's intuitive Smart Operation Panel to enhance the user experience. To boast productivity even more, all three models are equipped with a powerful 1.46 Ghz Intel® processor, streamlining operation and reduce waiting time when running complex software solutions. Were the standard high speed Single Pass Duplex Feeder make waiting for high demand scan jobs a thing of the past.

- Colour print, copy, fax (option MP C307SP) and scan enabled A4 desktop MFPs
- Uniform design, common functionality and easy operation same as Ricoh's A3 products
- Intuitive 10.1" widescreen super VGA Smart Operation Panel adjusts for easy viewing
- Single-pass duplex feed (SPDF) streamlines scanning processes
- Workflow solutions incorporating Ricoh's Next Generation (GWNX) controller

B&W Print: 30 to 40 pages per minute
Resolution: 1200 dpi (print), 600 dpi (copy), 600 dpi (scan)

DIRECT TO GARMENT PRINTING

Ri 100

The RICOH Ri 100 invigorates the world of Direct to Garment (DTG) printing with its space-saving design. The RICOH Ri 100 prints designs and photographs directly onto garments using state-of-the-art inkjet technology. You can easily and safely print a wide range of long-lasting products, whether you are a beginner or experienced print service provider. A one-of-a-kind T-shirt or a personalised bag can be printed for your customers to take away immediately. It has never been easier to expand your business with one Direct to Garment printer.

- Start your custom garment printing service in a snap
- Low initial investment required
- A complete solution from one trusted vendor
- Professional high-quality prints

Speed Mode: | **Resolution:**
1 minute 20 seconds or less | 600 x 600dpi
Fine Mode: | **Resolution:**
2 minutes 30 seconds or less | 1200 x 1200dpi

Speed Mode: | **Resolution:**
51 seconds | 600 x 600 dpi

Ri 3000

Ready for a faster and easier print to garment process? The RICOH Ri 3000 and Ri 6000 save you time, allowing you to produce more, and focus on mass customisation. The Ricoh DTG printers streamline print workflows into three easy steps:

- Upload the designs;
- Preview your work on the console and then print on a variety of garments (pretreated, if applicable).
- Then, cure the ink with a heat press for colour-fast, machine-washable prints that last and stretch without cracking.

Setup is faster and easier than the multistep process required for analogue technology, such as screen print. Screen printers, specialist DTG printers, sign & display printers, commercial graphic arts printers, other entrepreneurs can all benefit....from producing more inhouse. With a quick turnaround of short and long runs, you can consistently deliver high quality prints on time and keep customers coming back.

Expand your business by offering a wide variety of printed garments, including T-shirts, sweatshirts, socks and tote bags. The RICOH Ri 3000 and Ri 6000 can print on cotton-polyester blends and are ideal for printing on 100% cotton. And with up to 5.84 cm of laser-assisted table height adjustment, you can print on hoodies with zips and add other thick fabric prints to your product portfolio. Optional print tables let you add even more. Print service providers can now bring more work inhouse and increase revenue with one-offs and large order efficiently.

RICOH

UV FLATBED PRINTER

Pro™ T7210

The new Ricoh Pro™ T7210 UV flatbed is the ideal platform when printing onto a wide range of substrates requiring flexible ink with excellent adhesive properties. Productivity is further enhanced with the integrated vacuum table with pin registration that allows easy positioning of materials that are held firmly in place whilst printing. Full bleed printing eliminates the need for unnecessary trimming further reducing the time to dispatch the finished job.

- Capacity for up to 110mm media thickness
- Up to 100m2/h in high productivity 4C confi guration
- Integrated vacuum table with pin registration
- Specially designed end guards have sensors for operational safety
- Highly reliable Ricoh print heads
- Energy saving LED lamps
- Newly developed UV ink
- Front access to maximise operator productivity

Media: Rigid materials: Acrylic, PETG, PC, PVC, Glass, Aluminium, Steel, Wood, MDF etc.
Resolution: 635 x 1,800dpi

LARGE FORMAT PRINTING

Pro™ L4130 / Pro™ L4160

Benefit from a wider colour range that simply cannot be achieved with traditional CMYK 4– colour printing - the addition of orange and green inks mean that you can reproduce vibrant pastel colours, which are perfect for colourful display printing. Whilst the ability to use white ink produces even more vivid colour on transparent materials such as window film. Productivity is further enhanced by the fact that drying is almost instant.

- Print on almost anything
- Durable inks for inside and out
- Less drying time
- Eco-friendly
- Low energy power consumption

Max Print Speed: 18m2 per hour
Resolution: 900-1200 dpi

Colour Copy: 20 pages per minute
B&W Copy: 20 pages per minute
Resolution: 1,200 x 1,200 dpi

MP 2011 SP

Choose the Ricoh MP C2011SP to perform more tasks in less time. This versatile MFP also produces full colour output with two paper drawers for large sheet capacity. Low energy usage also means that the MP C2011SP is economical to run and friendly to the environment.

- Scanning to a wide range of destinations for easy document distribution
- Media capacity up to 2,300 sheets delivers uninterrupted print runs
- Double sided output reduces paper usage and cuts costs
- Effortless printing with Ricoh Smart Device Print & Scan mobile print app
- Electronic sorting of copies for speed and efficiency.

MP C3004 exSP / MP C3504 exSP

Enjoy a new way to work, powered by Ricoh's new Workstyle Innovation Technology, by creating unique and customized solutions and deploying workflow applications that streamline your business. Simply put, it's an innovative and intuitive way to be more productive. Use the RICOH MP C3004/MP C3504 to print, scan, copy and fax information in multiple formats to a wider range of audiences quickly and easily.

- Produce up to 35 color prints/copies per minute
- Use the intuitive touchscreen to multitask with a single flick, pinch or swipe
- Create customized workflows to expedite everyday tasks
- Print and share information on the go via your personal mobile device
- Highlight information with breathtaking colors and professional finishing

Colour Print: 30/35 pages per minute
B&W Print: 30/35 pages per minute

MP C4504 exSP / MP C5504 exSP / MP C6004 exSP

These hard workers form part of our flagship A3 colour Smart MFP range. Each model offers superb reliability, output quality and workplace productivity – so no matter which one you choose, these are the perfect devices for your high output, multipurpose environment. These devices have a Smart Operation Panel and they're designed to help you increase productivity thanks to their rich functionality – including several finishing options, banner printing capabilities and a new Intel processor.

- Intuitive touch and swipe Smart Operation Panel
- New Intel Processor increases productivity
- Human Detection Sensor
- Offers a range of great finishing options
- Professional output with banner print capability

Colour Print: 35/55/60 pages per minute
Resolution: 1,200 x 1,200 dpi

MP C6503 SP / MP C8003 SP

We understand the types of workflow challenges your business faces on any given day, especially in this connected world. So we've developed our latest range of high-end A3 Colour MFPs to exceed your expectations. Our professional-quality Colour Smart MFPs are designed for the kinds of print environments that demand seamless, connected workflow. Extremely powerful, these smart machines are easy to use, but they produce the professional results you demand on a daily basis – so there's never any downtime.

- Uniform platform (65 to 80 pages per minute common interface options)
- Easy to use (Smart Operation Panel and Intuitive User Interface)
- Workflow enabled (GWNX controller offering solutions support)
- Eco-friendly (stapleless finishing and best-in-class TEC)

B&W Print: 65 to 80 pages per minute
Resolution: 600 dpi

OFFICE EQUIPMENT: **COLOUR PRINTER**
Colour printers with multifunctional capability.

SP C260 Series

Colour printers and MFPs need to be responsive, easy to use, reliable and ready when you are. The SP C260DNw, SP C261DNw, SP C260SFNw and SP C261SFNw are compact and affordable devices, which tick all those boxes and more with an array of features that make it easy to print from mobile. The SP C261SFNw model also offers a Single Pass Document Feeder for seamless double-sided scanning. Enjoy high productivity along with tangible time and cost-saving benefits, seamless operation and durability you can rely on.

- Compact design and full front operation saves space
- Stunning 2,400 X 600 dpi quality 20ppm colour output
- Supports Wi-Fi Direct, Mopria, Google Cloud Print, AirPrint and NFC so you can print from or scan to any mobile device
- Enhance usability with intuitive, easy-to-use 4.3 inch colour touch panel – SP C260SFNw & SP C261SFNw only
- Single Pass Document Feeder for instant double-sided scanning to save you time – SP C261SFNw only

B&W Print: 20 pages per minute
Resolution: 2400 X 600 dpi

OFFICE EQUIPMENT: **WIDE FORMAT**
Ricoh presents a complete line-up of productive wide format, multi-function document centres that offer scanning, and copier options with finishing capabilities.

MP W5100 / MP W7140

The Ricoh Aficio MP W5100 and MP W7140 allow for fast printing even as you capture, share and save all of your day-to-day hard-copy document processes—color markups, edits, penciled-in changes and asbuilts— into your ever-changing project workflow. The Ricoh Aficio MP W5100 and MP W7140 Wide Format Digital Imaging Systems are truly high productivity tools that can help you work smarter, collaborate easier, share faster and finish your projects on-time and on-budget.

- Color LCD touch-panel interface makes walk-up operation easy and intuitive
- Built-in color scanner captures color markups in-house
- Original output tray holds up to 50 D-size originals for minimal interruptions when making copies
- Minimize system footprint with the embedded color scanner

B&W Print: MP W7140: 7/14 pages per minute MP W5100: 5/10 pages per minute
Resolution: 600 dpi

MP CW2201SP

Designed for CAD/GIS and Graphic Arts applications, the Ricoh MP CW2201SP has enhanced speed and image quality to help you capture more Mono EP volume and increase colour productivity. While advanced GEL-JetTM waterproof ink technology and innovative features such as the smart operation panel and auto nozzle detection, help boost your efficiency to stay highly competitive.

- Print, copy and scan – all in full colour
- Delivers high-quality colour output fast
- Makes colour output affordable
- Innovative GEL-Jet waterproof ink technology
- Superb line accuracy, smudge-free and UV-resistant

B&W Print: 3,8 pages per minute
Resolution: 600 x 600 dpi

MP CW6700SP

The ultimate light mono printer for low and mid-range users. Want high-speed output, high resolution and high reliability? Then this new digital multi-function monochrome printer has been created for you. The one device enables you to print, copy and scan in colour. You can also archive to improve document security and storage plus quickly and easily retrieve archived documents.

- High-speed monochrome printing at 6.7 pages/minute (A1 horizontal)
- Scan to Media and Media to print with features integrated in the one machine.
- The new USB/SD slot allows data to be directly saved – no PC required
- The smallest footprint, compact in design and operation

B&W Print: 6,7 pages per minute
Resolution: 600 x 600 dpi

OFFICE EQUIPMENT:
DIGITAL DUPLICATORS

The Ricoh range of Priport™ Digital Duplicators print high volumes, high quality and high speed at a low cost.

SP C440DN

The advanced SP C440DN has a sophisticated feature set providing best-in-class total cost of ownership for an A4 mid-range colour printer. An output speed of 40ppm combined with an impressive array of security functions, flexible media options and eco-friendly operation make the SP C440DN the ideal solution for your colour print needs. And an ECOnomy colour output mode significantly reduces the cost compared to full colour printing.

- On/off timer and Eco night sensor reduce power consumption costs and energy costs
- Advanced security features, include optional NIC2 port, protecting secure networks
- Flexible media options meet all print-output needs
- ECOnomy function allows colour output at affordable cost
- Eco-friendly features save energy and reduce carbon footprint
- A4

Colour Print: 40 pages per minute
B&W Print: 40 pages per minute

Priport DX 2330

High-speed printing does not have to be expensive. The Priport DX 2330 offer excellent value for your money. Printing an impressive 90 pages per minute, these systems are both reliable and user-friendly. Adding spot colours or editing documents for a professional look is easy. The duplicators turn into extra fast printers when upgraded with a PC controller.

- High performance.
- Smart paper feed.
- Easy colour drum change.
- Several editing functions.
- Optional PC controller.

Max Print Speed: 90 pages per minute (2 steps)
Resolution: 300 x 300 dpi

B&W Print: 45 to 60 pages per minute
Resolution: 1200 x 1200 dpi

SP C840 / SP C842

Faster colour processing and best-in-class finishing options are only the start of the benefits. In fact, our latest A3 colour line-up can help you do more than ever. The SP C840DN and SP C842DN devices feature a 1,200 x 1,200 dpi image quality, 45ppm and 60ppm speeds and offer new ways to exceed your needs. And because they feature our Smart Operation Panel, you can preview jobs on the 10.1-inch screen and do much more in-house, so you can offer your business and customers a seamless, high quality colour experience.

- The first A3 colour printer with our Smart Operation Panel
- Faster processing of high data-volume colour print jobs
- Huge range of finishing options for professional, in-house output
- Highest standard paper-capacity in its class: 1,200 sheets
- Robust, reliable and low Total Cost of Ownership

Max Print Speed: 130 pages per minute
Resolution: 300 x 400 dpi, Fine mode

DD 3324

The DD 3324 offers an exceptional output speed of 130 pages per minute, which helps high-volume printers maximise their productivity. In addition, both A4 and A3 input can be handled easily and the device fits on a desk close to the operator. Thanks to Ricoh's increased scanning resolution of 600 x 600 dpi, the results truly stand out.

- Speedy performance and user-friendly functions that meet user needs.
- Superior reliability and environmental value.
- A device to depend on for high-volume printing.

PRINTERS:
MONO

From small office to centralised production environment, there are affordable Ricoh solutions enhancing black and white printing productivity.

B&W Print: 60 pages per minute
Resolution: 1200 x 1200 dpi

SP 8400DN

When you need a robust, high-performance solution, the Ricoh SP 8400DN is here to transform your workflow. Printing the first page in just 2.2 seconds, this A3 60ppm B & W printer with multiple finishing options is perfect if your daily business does not allow you to wait for your print output. Experience the difference with the SP 8400DN, our first black and white printer with a Smart Operation Panel, a tabletlike 10.1-inch interface that's built to boost your productivity.

- At 60ppm, speed meets reliability in a durable design built for constant use
- Easy to operate using the intuitive 10.1-inch touchscreen Smart Operation Panel
- Powerful controller provides full speed printing of even the most complex jobs
- Versatile and compact with multiple finishing options in a small footprint printer
- Environmentally friendly with lowest TEC value in its class

---

SP 5300 / SP 5310

Both the SP 5300DN and SP 5310DN models are the types of fast, reliable, hardworking, everyday printers that will form the backbone of your company's document output. In fact, they're probably both best described as powerful, efficient and durable workhorses. And although they're both compact, these A4 Black and White Printers will quite simply get the job done. An added bonus is their durable design combined with their class-leading reliability – and their powerful controller and advanced processor means superfast output too.

- Small footprint
- Advanced controller and processor
- An almost maintenance free device
- Print speed options of 50 and 60 ppm ECO friendly with low power consumption

B&W Print: 50/60 pages per minute
Resolution: 1200 x 1200 dpi

SP 4520DN

Ideally suited for small to medium-sized workgroups, the SP 4520DN is a compact, cost-efficient A4 black and white printer with a 4.3 inch colour touch panel for improved workflow. Thanks to its small footprint and sleek modern design, these printers can easily fit on the corner of a desk – but their small stature does not compromise on quality. Delivering stunning performance, this business printer offers best-inclass environmental credentials and superb cost efficiency.

- The best energy efficiency in its class
- Easy-to-use 4.3 inch colour touch panel
- Save money with low Total Cost of Ownership
- Offers 1200 x 1200 dpi at full speed
- Print direct from USB-stick

B&W Print: 40 pages per minute
Resolution: 1200 x 1200 dpi

B&W Print: 38 pages per minute (A4)
Resolution: 1200 x 1200 dpi

SP 6430DN

Outstanding media flexibility means that paper up to A3 in size and 220 g/m2 in weight can be used. Standard paper capacity is 600 sheets with the option of up to 2,100 sheets from five trays, so the SP 6430DN can manage long print runs and frequent use. No need to wait around for single prints either because a first print is generated in just 6.5 seconds.

- Smallest footprint in class saves valuable office space
- Cost-effective with Low Total Cost of Ownership
- Efficient output with best-in-class first page out in just 6.5 seconds
- Up to 2,100 sheets from maximum 5 paper trays and 500 sheet output capacity
- Flexible paper supply including thick paper up to 220 g/m2

SP 377DN

When you need to keep your business moving and your work flowing, the SP 377DNwX and SP 377SFNwX models have the answer. Equipped with a best in class, ultra-high yield All-In-One toner cartridge, you get up to 6,400 prints straight out of the box and won't need to buy new toner any time soon. With a longer print run, your overall cost per print is reduced and your total cost of ownership is reduced too. And of course, the added print capacity comes at no compromise of compactness or quality.

- Full ultra-high yield cartridge capable of up to 6,400 prints included
- Best-in-class CPP and less frequent purchase and replacement of AIO cartridge
- Compact with 1,200 x 1,200 dpi print quality
- Supports Windows, Mac and Linux IT environments
- A4

B&W Print: 28 pages per minute
Resolution: 1200 x 1200 dpi
